

NASPO INTERNATIONAL

with the

Class II Requirements and Objectives of the ISO 14298 (2021) – Management of Security Printing Processes

Scope: This International Standard specifies requirements for a security printing management system for security printers.

This International Standard specifies a minimum set of security printing management system requirements. Organizations ensure that customer security requirements are met as appropriate provided these do not conflict with the requirements of this International Standard.

Meyercord Revenue, Inc (a SICPA Company)
